FOREWORD

Have you ever considered that gardening not only pays immense dividends in actual dollars worth of returns in the way of fresh and green edibles, but that even greater than this it provides a source of physical and mental relaxation that is unequalled for the time or money involved.

That is really the reason why so many people who can afford anything and everything that money provides and who have sampled many or any of the world's luxuries and pastimes invariably delight to a greater degree in the care of a smaller garden to other corresponding forms of effort.

With these two factors: first, the value moneywise of a garden; secondly, the value pleasurewise of a garden, our organization takes especial care and pleasure in making sure that users of our products will not be disappointed.

If you have not used our products, try them by all means during 1939—compare them well with those brands you have used heretofore, and see how thorough we have been in this work of ours.

Each year an increasing wave of satisfaction greets our endeavor to do a better job in rendering you a more profitable and pleasurable seed service, and we know that 1939 will see us becoming more firmly than ever entrenched in your affections as a reliable seed institution.

THOMAS W. EMERSON COMPANY

Superior Garden Seeds

Superior Flower Seeds

ANNUALS

There is a great difference between competitive brands of packet flower seeds. Few gardeners will question this statement. We have succeeded in convincing thousands that Emerson's values are unusual in their results.

You can depend upon us to fill your orders on them almost as quickly as if they were your own.

SELL "English Formula" Lawn and Garden Dressing as the IDEAL FLOWER GARDEN plant food

Emerson's Finer Lawn Seeds

If you are interested in the preservation and texture of your lawn a year from now, be sure to use EMERSON'S Lawn Seeds for three reasons. (1) They contain a minimum of inert matter and weed seed content. (2) The better brands under our label contain Velvet Bent that most exquisite of all lawn grass seeds. To our knowledge it is the first time such an expensive ingredient has been used in standardized lawn seed brands under any label. (3) You can depend upon them to give you a vigorous growth because only new crop, high germinating, seed ingredients are used.

PUTTINGREEN

1-lb. Canister	per lb.	\$0.75	We don't know how to make a better lawn grass seed. A thoroughly practical grass for home owners who realize that it will produce a turf which once established is almost indestructible. Contains Velvet Bent.
5-lb. Bag	per lb.	.70	
10-lb. Bag	per lb.	.65	
25-lb. Bag	per lb.	.60	

SPECIAL MIXED

1-lb. Canister	per lb.	\$0.65	Our oldest and most famous Lawn Seed;—in fact, it was the first chaff free lawn mixture in the United States. Contains a bit of White Dutch Clover along with other fine domestic and imported grass. Contains Velvet Bent.
5-lb. Bag	per lb.	.60	
10-lb. Bag	per lb.	.58	
25-lb. Bag	per lb.	.55	

GEM LAWN

1-lb. Canister	per lb.	\$0.60	There are no finer brands under other labels than this one for producing a practical and beautiful lawn. For most purposes it will satisfy any one. Contains Velvet Bent.
5-lb. Bag	per lb.	.55	
10-lb. Bag	per lb.	.50	
25-lb. Bag	per lb.	.45	

ERLY GREEN

1-lb. Celophane bag	per lb.	\$0.45	Our largest selling brand of lawnseed. The first one to be packaged in cellophane to show its quality. If you are satisfied with an average lawn in texture and appearance, you can buy no better value than this blend.
5-lb. Bag	per lb.	.40	
10-lb. Bag	per lb.	.38	
25-lb. Bag	per lb.	.35	

HUB LAWN

1-lb. Bag	per lb.	\$0.35	Perhaps this will produce a lawn a little coarser in texture than the better grade of seed, yet it is surprising how satisfactorily it has worked out for those buyers who just want a turf covering that will stand up for several year's duration.
5-lb. Bag	per lb.	.30	
10-lb. Bag	per lb.	.28	
25-lb. Bag	per lb.	.25	

EMSECO

1-lb. Carton	per lb.	\$0.25	This grass mixture is made up with mostly short lived grasses, yet it has a minimum of weed content. Purity and germination are as high as any. It will grow grass under difficult conditions although it cannot be depended upon to produce a permanent turf.
5-lb. Carton	per lb.	.23	
10-lb. Bag	per lb.	.20	
25-lb. Bag	per lb.	.18	

SHADY GREEN

1-lb. Carton	per lb.	\$0.75
5-lb. Bag	per lb.	.70
10-lb. Bag	per lb.	.65
25-lb. Bag	per lb.	.60

This perfected mixture will grow under trees. provided there is sufficient plant food and moisture. Besides containing Rough Stock Meadow Grass and Chewings Fescue, it has the added feature of Velvet Bent.

SHADY PARK

1-lb. Bag	per lb.	\$0.60
5-lb. Bag	per lb.	.55
10-lb. Bag	per lb.	.50
25-lb. Bag	per lb.	.45

A practical grass for shady places but not as fine in texture as Shady Grass. Preparation of soil by liming and loosening and fertilizing should be made to assure best results with this seed.

CREEP TURF

Sold only from bulk bag at your merchant's store.

Price per lb. \$0.40

This particular grade of seed which is new this year comes to you after considerable experiment. For embankment and playground areas it is hard to beat. There is no reduction in price up to 100-lb. quantities.

FANCY GRASSES

VELVET BENT —Rarest of all Bents	lb.	\$6.00
NEW ZEALAND BENT (Brown Top) Contains a little velvet	lb.	2.25

HARD FESCUE —Looks the same as Chewing's, but grows in tufts	lb.	.80
ROUGH STALK MEADOW (Poa trivialis) Imported from Denmark. A shady grass.	lb.	.90
MEADOW FESCUE A finer non-creeping perennial grass suitable for meadow or pasture	lb.	.45
ORCHARD GRASS	lb.	.50

Field and Forage Grass Seeds

Our field seeds and legumes can be depended upon for minimum weed seed content. This is the most important factor in their consideration, for once established in your fields they are well-nigh eradicable.

Emerson's Hay and Pasture Grasses

It takes the right combination of perennial grasses and clovers to enrich your land quickly and at the same time produce suitable forage. These prepared blends have never failed to produce the utmost satisfaction for our farmer friends.

	10 lbs.	25 lbs.	100 lbs.
EMERSON'S DAIRY FARM HAY SEED— Gives a dense and well supported hay growth that has superior milk-producing qualities. Its goodness is unsurpassed for all-around dairy use. Sow 30 lbs. to the acre.	\$3.50	\$7.00	\$25.00
EMERSON'S STANDARD HAY MIXTURE— For horse hay this blend of Kentucky Blue Grass, Timothy, Red and Alsike clovers will do well on most any drained land. Sow 31 lbs. to the acre.	3.50	7.00	25.00
EMERSON'S PERMANENT PASTURE GRASSES— In wet or dry weather on low or high ground this combination of grasses will give you a permanent grass turf that will grow on the poorest kinds of soil. Sow 40 lbs. to the acre.	3.75	7.50	27.00
EMERSON'S REVITALIZING SOIL FORMULA— Let each farmer take 10 per cent of his tillable acreage each year and treat it as follows: In the Fall, thoroughly chop up the old meadow with a disc harrow before plowing. Sow this land in the early Spring with oats and peas. Top-dress this crop with barnyard manure or 4-8-4 commercial fertilizer. When in bloom again use your harrow to cut the crop before plowing. Seed the same land with buckwheat. When in bloom harrow thoroughly before plowing. Seed the third time to rye and winter vetch. This crop should be harrowed and plowed the following May.			

BEFORE FERTILIZING TEST YOUR SOIL

**THE SUDBURY
SOIL TESTING KIT**

\$18.00

A practical, portable, soil analyzer.

Emerson's Wild Bird Food

FEEDING THE WILD BIRDS WHO STAY WITH US DURING THE WINTER MONTHS IS BOTH A FASCINATING HOBBY AND WORTHWHILE CHARITY

It acquaints children and grown-ups with the various species of birds by bringing them close to your window's edge all winter. There is no other way so convenient to observe their pleasing activity. You perform at the same time a philanthropy at small cost and that is returned to you many times in repelling insect activity during the summer months. Wild birds are our first line of defense in these respects.

Although Emersons' Wild Bird Food was the first in the field and is still acknowledged by leading authorities as the finest and most delectable, we urge you to compare it with others in appearance and results.

5 lb. bags (Illustrated).....each	\$0.65
100 lb. bags (Illustrated).....each	8.50
100 lb. bags (This grade contains fewer ingredients).....each	7.00

This mixture is for those individuals who feel they must have a low price.

IMPORTANT

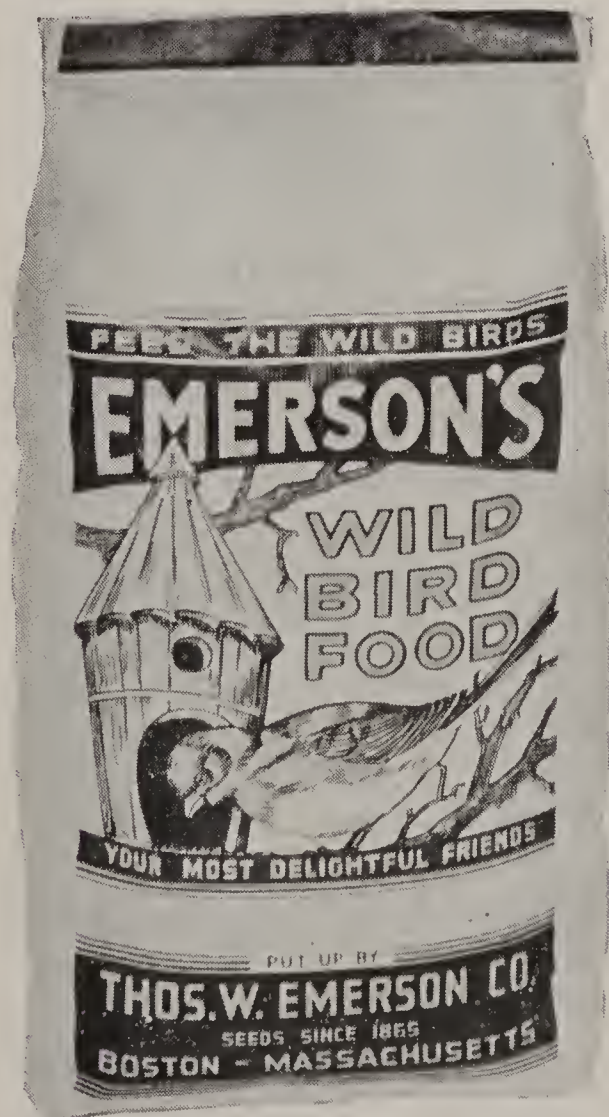

No cracked corn or mash seeds go into our bird seed as is the case with others.

Hence it is less wasteful and more attractive to bird life.

Particularly beneficial is the small content of grit that is so necessary in the proper feeding. No other bird food offers this grit feature.

Garden clubs are invited to purchase their requirements in bulk and to combine their needs in buying 100-lb. bags. Your merchant will distribute it at small additional cost this way over the 100-lb. bag price.

Please note bird feeders (most inexpensive) on page 22. They make bird study easy by bringing them close in proximity to your window.

THE 5-LB. BAG IS POPULAR

Emerson Bird Feeders

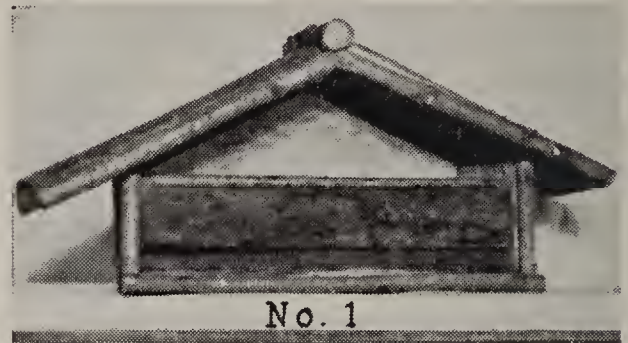

In conjunction with the sale of Wild Bird Food in which we have pioneered the past twelve years, we have selected a few practical yet inexpensive types of Wild Bird Feeders.

Through their purchase you make available the study of Wild Bird life more interesting to your family and friends. It helps you conserve your bird feed ration by eliminating waste.

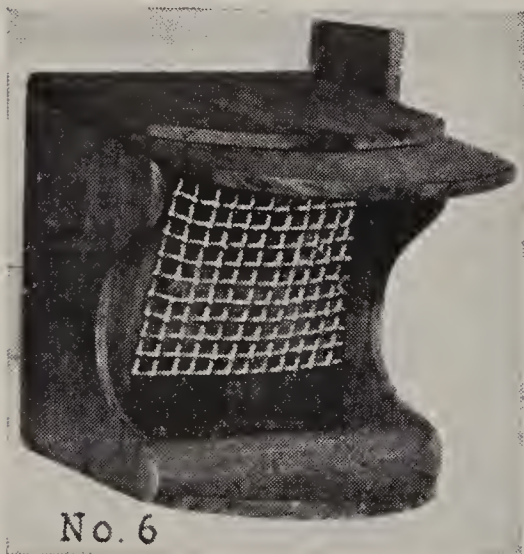

Note the pleasure and satisfaction that this brings to your home by having at least one at your living room window and one at your bedroom window.

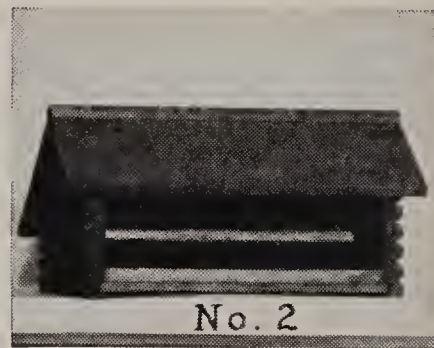

No. 3

PRICES—The prices in this catalog with few exceptions hold for the entire year. Your merchant, however, may be forced to make additions on a number of items according to his replacement costs which vary from time to time.

TERMS—Prices in this catalog contemplate only cash terms. Where your merchant is rendering them to you upon a credit basis, he is entitled to slightly increased prices in cost to cover this service.

DELIVERY—Delivery is at customer's expense except where your merchant is willing to assume this cost in the selling price.

Volume buyers are this year invited to get from us through their merchant special prices which would be for quantities considerably in excess of those quoted you. We will do our best and co-operate with you in rendering you such quotations so as to facilitate shipment where you are in a hurry to secure the merchandise.

A Wonderful Plant Food

Five years ago we determined to give our trade the finest possible organic plant food money could produce for all-round use.

Since that time the sales of ENGLISH FORMULA Lawn and Garden Dressing have exceeded our best expectations through the repeat orders of its users.

For greenhouse work we have been assured it has no superiors. In the five short years it has existed it has proven itself an equal to the most expensive imported organic plant food products selling at twice the cost.

Three outstanding things regarding its values are these:

1. It produces a sort of antiseptic reaction when applied to soil containing excessive ground bacteria and organisms usually harmful to germination and the start of healthy plant growth.
2. An alkaline reaction results upon its application producing a slightly sweetening effect that brings out what dormant plant foods already exist in the soil in addition to that which it adds.
3. A permanency of plant food value not found with others at or near its price. You can depend upon it to see your plants through under the most trying weather or soil conditions.

Our offer that originally introduced this unusual product to skeptical buyers still stands. If upon the purchase of 100 lbs. of ENGLISH FORMULA for greenhouse or field use, and after its trial for six months, you are not convinced of its unquestionable superiority, your purchase price will be refunded promptly and without question.
